

Welcome to your premier source for fine architectural millwork.

Real Woods is proud to provide our customers with the highest quality raw or pre-finished doors, mouldings, beams, cabinet doors, and other architectural millwork, including radius mouldings & furniture. We also supply Azek, plywood, decking, columns and hardware.

We offer a wide variety of wood species for exterior or interior use for painting or staining. We are able to build to your specifications and provide knowledgeable and personalized service.

Included in our guide are some of the most common profiles and door styles used in our architectural millwork. They are available in most domestic hardwoods, soft woods and imported hardwoods. If you are looking for a totally unique look or style send us an idea and we will have our design staff provide shop drawings to fulfill your expectations.

Please call us with any questions you may have or feel free to fax or email a door or trim schedule you would like us to quote.

Thank you for your time and consideration. We look forward to working with you.

Sincerely,
Team Real Woods

Other Products Available
